Volunteer Spotlight

In the Spotlight: Marilyn Baker, Pennsylvania

Lynn Patrone, Pennsylvania Behavioral Health and Aging Coalition, nominated Marilyn Baker for Volunteer Spotlight. Here is what she had to say:

"I would like to recognize Marilyn Baker for her outstanding efforts in outreach to the mental health community in creating awareness of our SHIP, including our newest addition to [Pennsylvania's SHIP](#), the Behavioral Health Connection (BHC). Ms. Baker is a member of the National Alliance on Mental Illness and strives to ensure that the mental health community has access to our SHIP and BHC programs. Ms. Baker makes it a point to attend and provide information at all local events and community meetings. She continuously advocates for beneficiaries who have mental illness to ensure that individuals in her community have access to our assistance. Additionally,

Ms. Baker represents the mental health population at statewide planning meetings and emphasizes our SHIP and BHC through her work, thereby reaching beneficiaries across the state.

Thank you!"

Congratulations, Marilyn!
