

### **Description of County Graphs**

The individual county charts are compilations of self-reported data, ranked and divided into fifths (20%).

The purpose of these charts is to illustrate the progress made from 2009 to 2010 on the following indicators:

*Indicator 2: Peer Funding % by County Budget ; Indicator 5: Affirmative Action Hiring Policies ;*

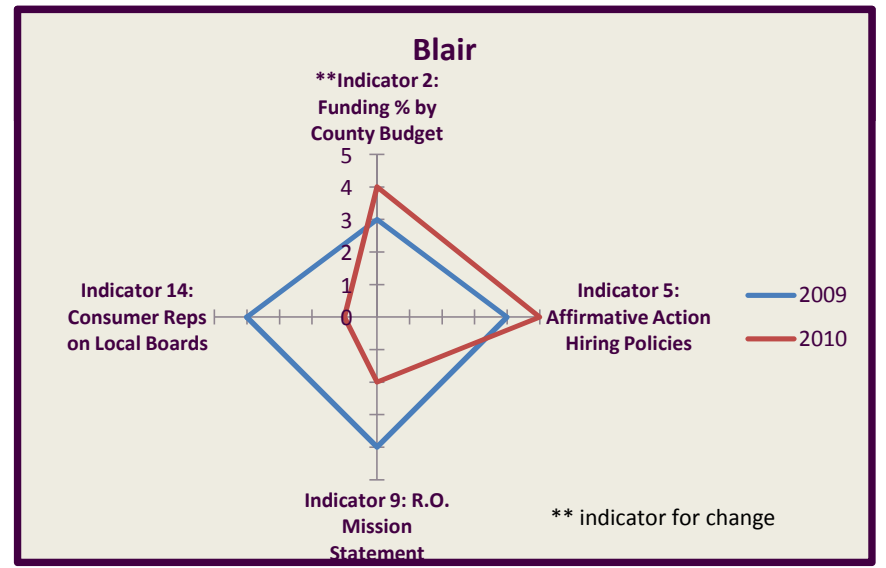

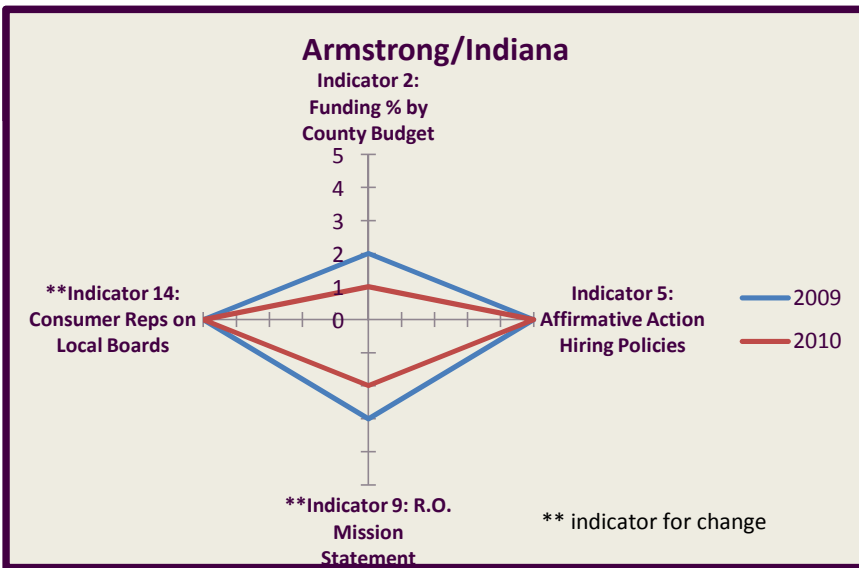

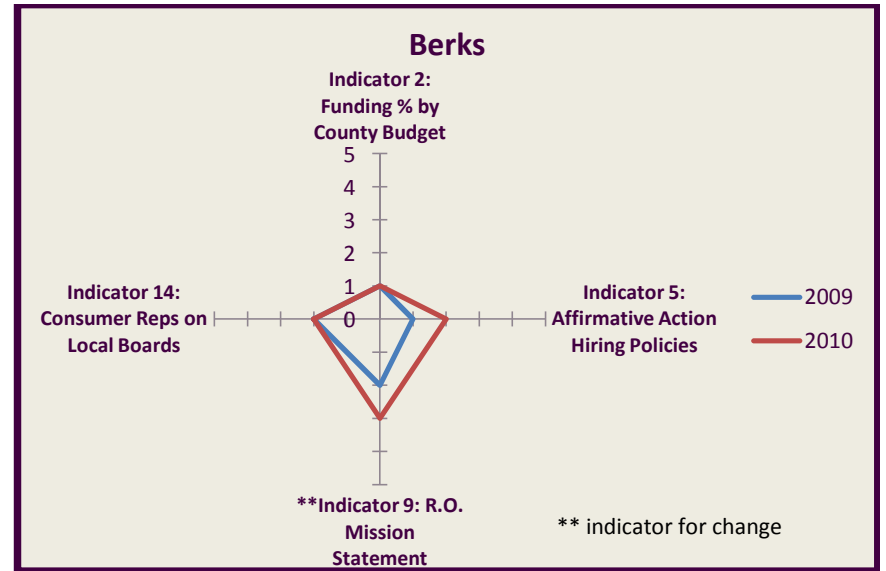

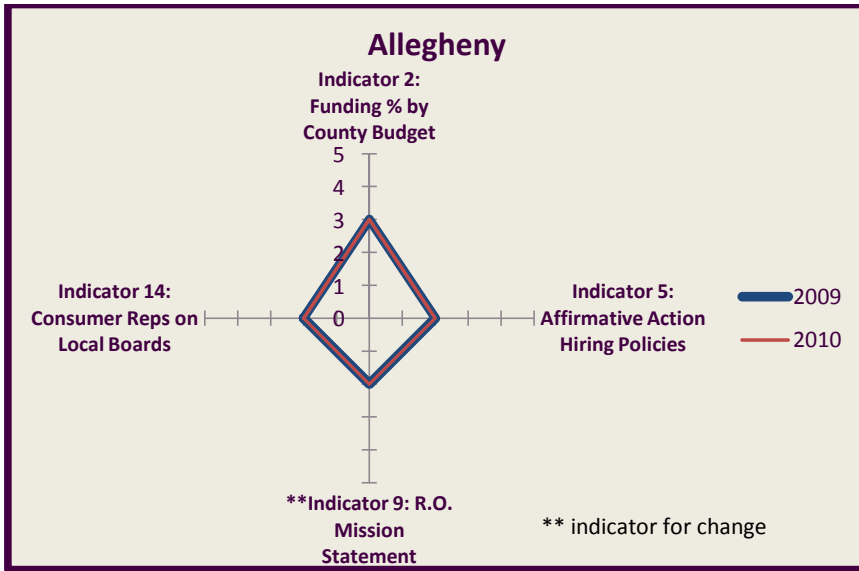

*Indicator 9: Recovery-Oriented Mission Statement; Indicator 14: Consumer Representation on Boards.*

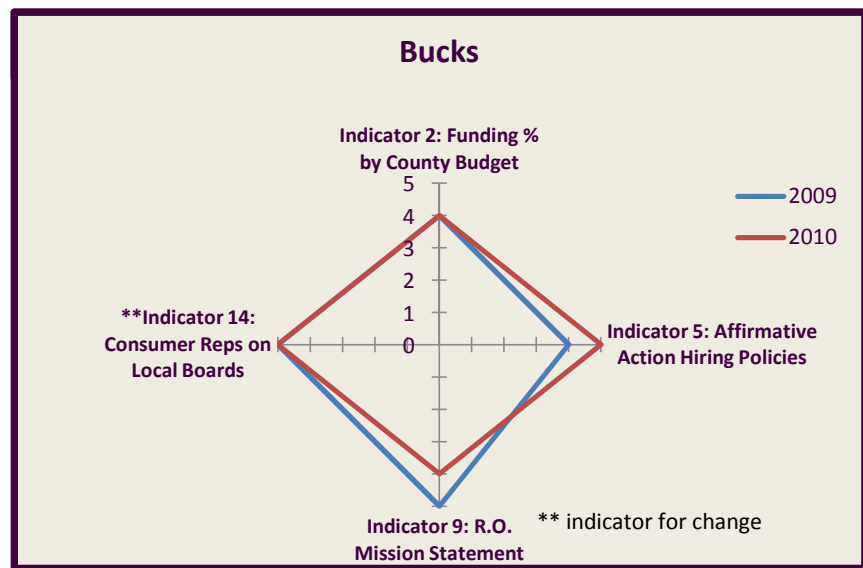

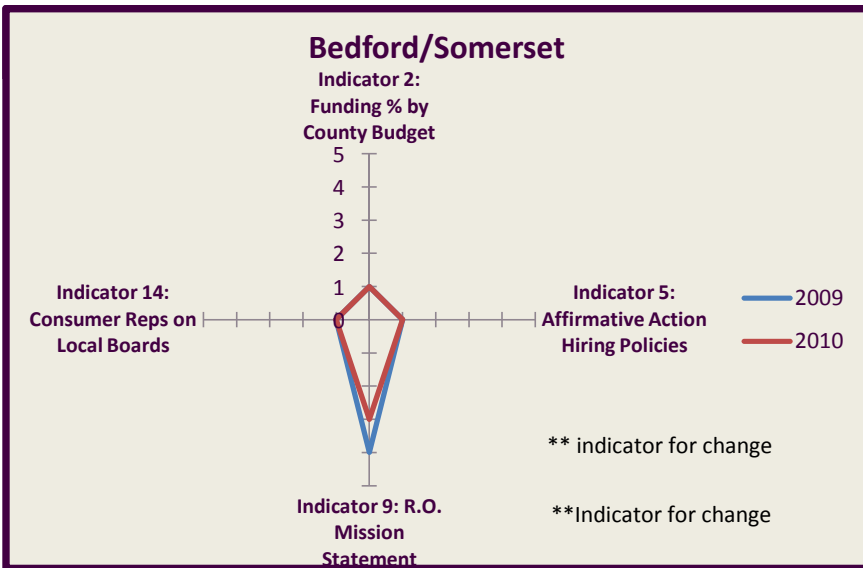

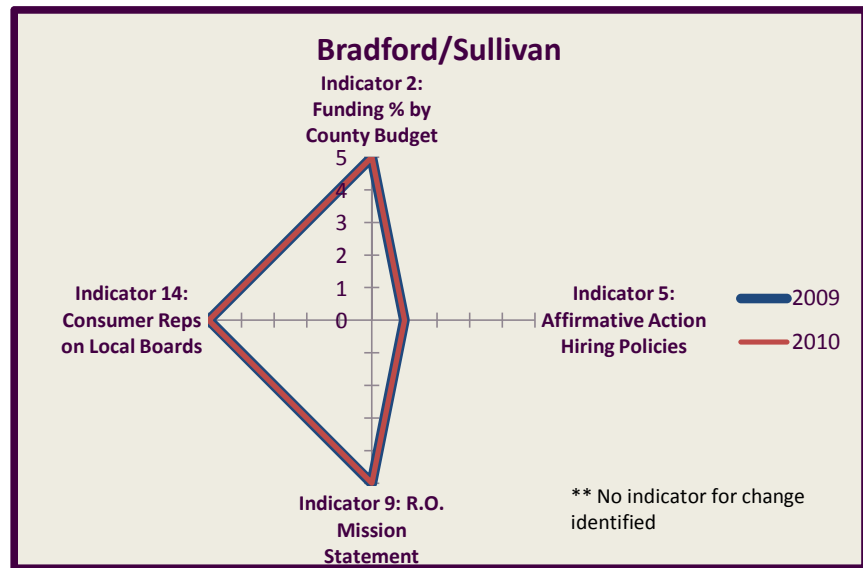

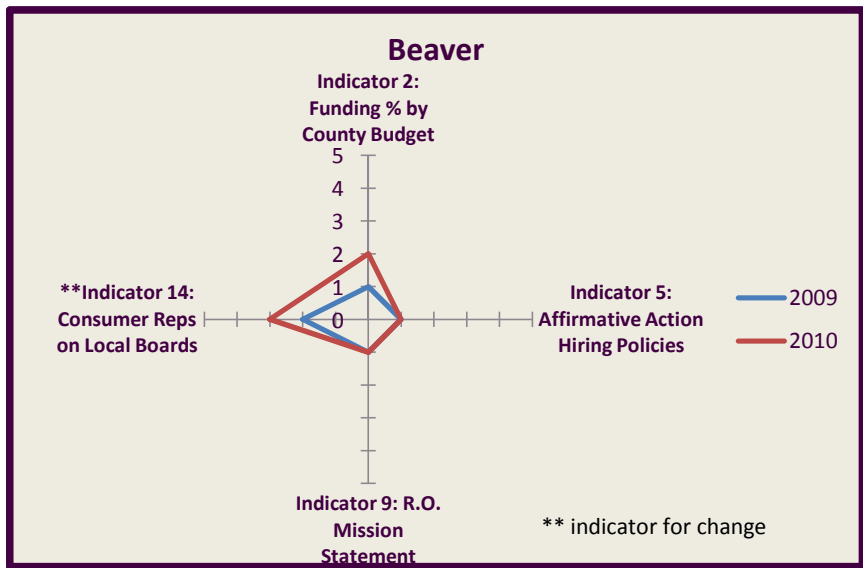

The charts also highlight which indicator was selected by the county for change and provide a visual means to track progress.

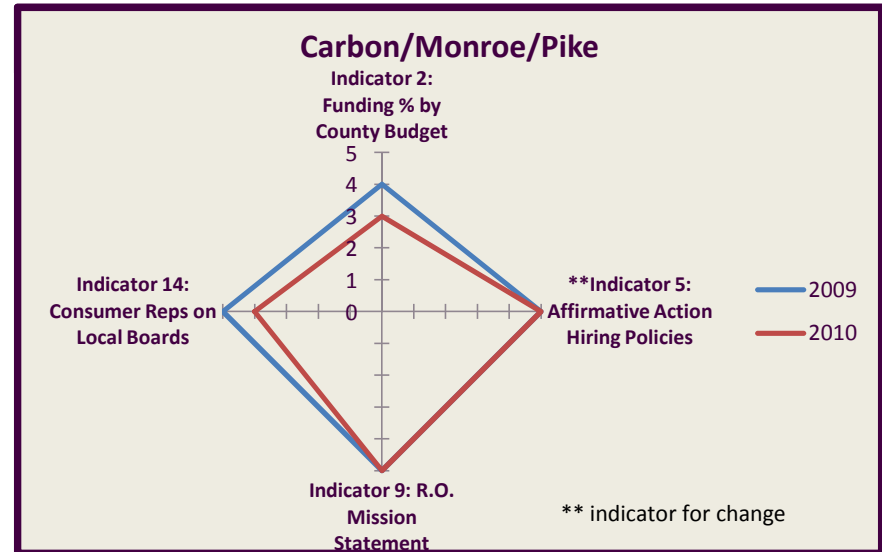

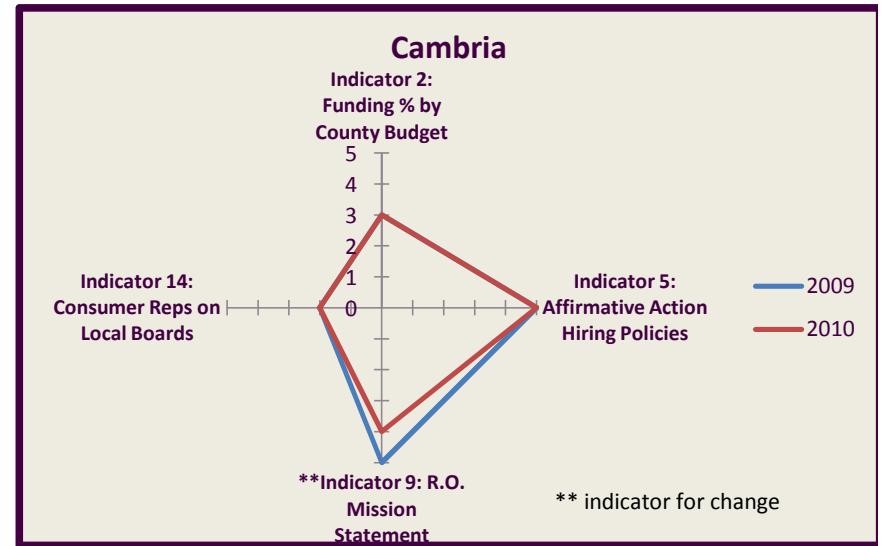

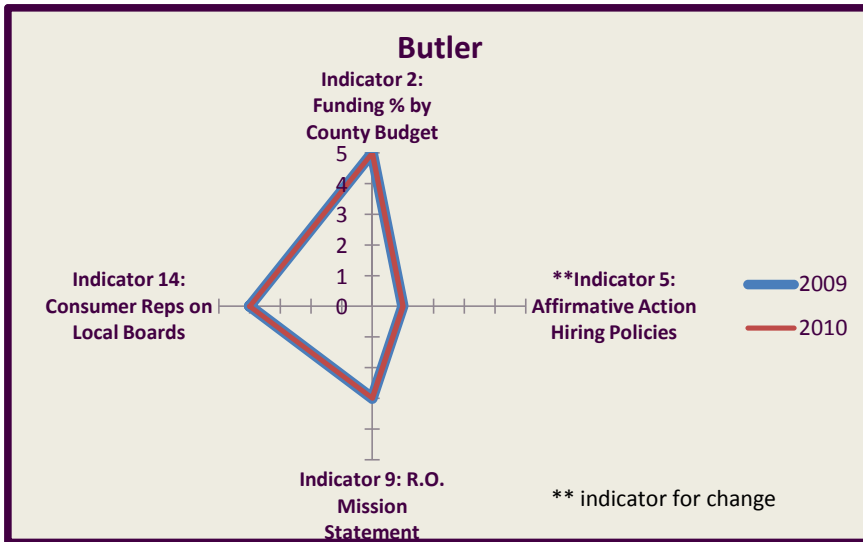

If a county was ranked “1”, it indicates that their performance (as compared to other counties) fell in the bottom 20%.

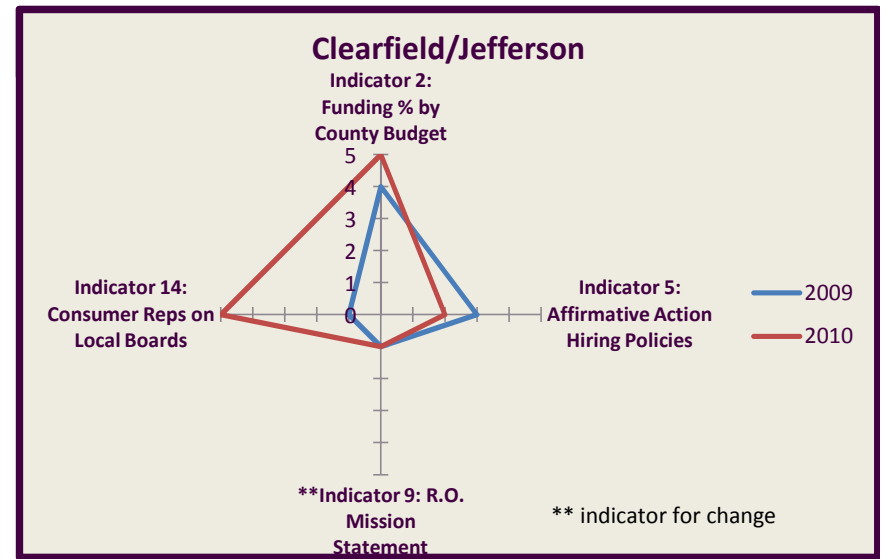

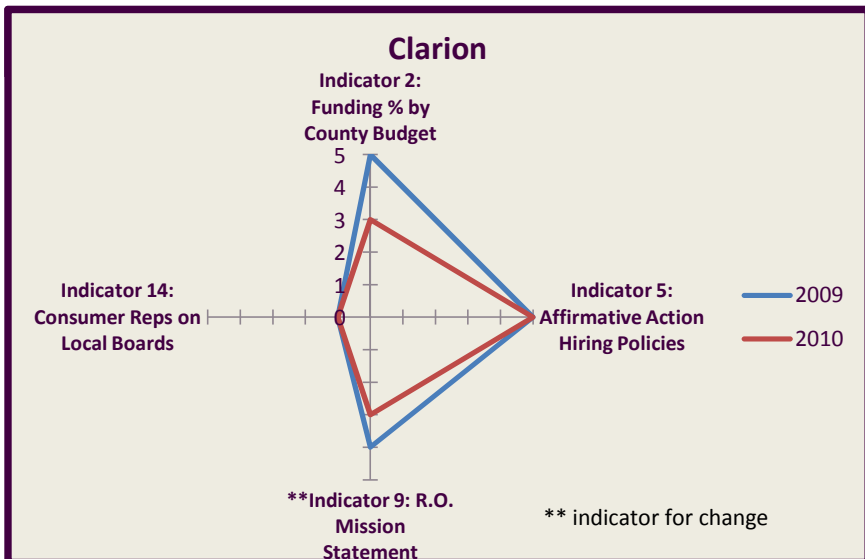

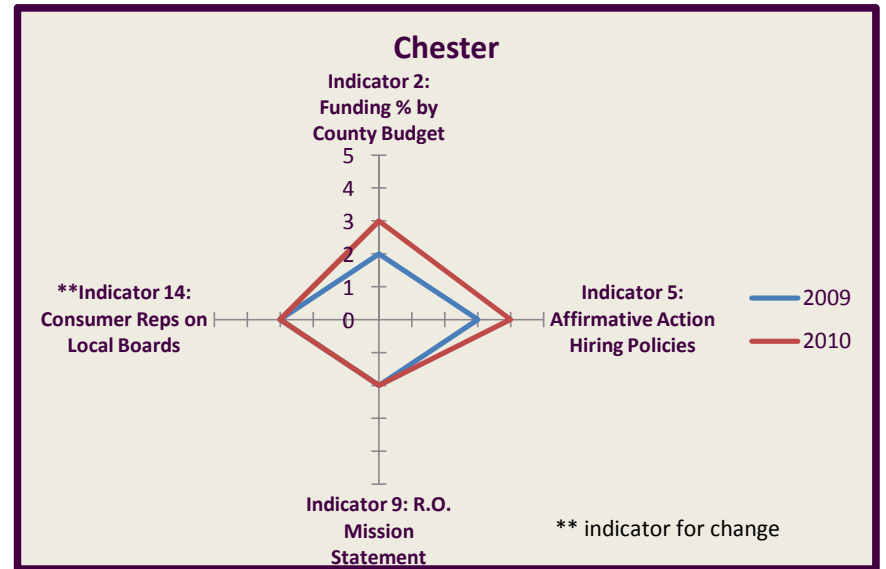

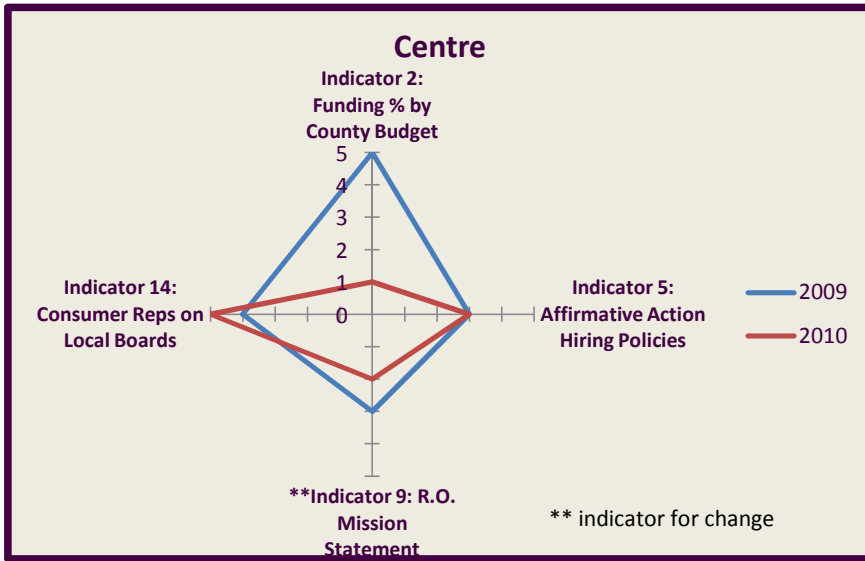

If a county was ranked “2”, their comparative performance fell in the second 20% (above 20% but below 40%) and so on.

Counties ranked "5" are in the top 20% tier.
